PROFESSIONAL SUMMARY

IT and operations professional with 3+ years of experience in technical support, systems monitoring, and data operations across the ticketing, financial services, and healthcare industries. Builds full-stack web applications, automation scripts, and data pipelines using Python, SQL, and React/Next.js. Experienced with CRM platforms (Salesforce, Genesys), relational databases (PostgreSQL), and workflow automation tools (Selenium, Playwright, n8n). Bachelor of Science in Computer Science.

Looking to apply automation, data, and support engineering skills to roles in IT automation, CRM/SaaS operations, ERP support, or data engineering.

CORE SKILLS

Programming & Query Languages: Python, TypeScript, JavaScript, SQL

Frameworks & Libraries: Next.js, React, Tailwind CSS, Prisma ORM

Automation & Tooling: Selenium, Playwright, n8n, Google Sheets Automation, Excel

Databases & Infrastructure: PostgreSQL, Docker, Git, GitHub, Vercel, REST APIs

CRM & Support Platforms: Salesforce CRM, Genesys

Operations: Data validation, reporting, workflow monitoring, process documentation, ticketing systems

PROFESSIONAL EXPERIENCE

Technical Support Specialist

Ticketshop — Dubai, UAE

Aug 2025 – Present

- Monitor ticketing platforms and operational systems to maintain uptime and performance
- Track order workflows and identify missing, pending, or inconsistent records
- Analyze operational data in Excel and Google Sheets to support daily reporting
- Maintain and validate structured databases to ensure data accuracy and consistency
- Troubleshoot operational and system-related issues, escalating when required
- Build automation scripts in Python and SQL to reduce repetitive manual tasks
- Design n8n workflows to automate data syncing, notifications, and reporting across systems
- Develop internal monitoring and reporting tools to support workflow optimization

Senior Associate, Customer Support (Healthcare Account)

WNS Global Services

May 2024 – June 2025

- Supported healthcare account customers through phone and email channels
- Resolved account inquiries, processed documentation, and handled service requests
- Maintained and updated customer records across internal systems
- Managed high-volume interactions while meeting quality and compliance standards
- Coordinated with internal teams to resolve escalated customer concerns

Customer Service Representative / Sales Associate

Foundever

May 2022 – April 2024

- Provided customer support for financial services accounts, resolving inquiries and account issues
- Used Salesforce and Genesys to manage customer interactions and case resolution
- Handled high call volumes while maintaining service quality and performance metrics
- Recommended products and services, contributing to sales performance

TECHNICAL PROJECTS

BudgetFlow — Personal Finance Web Application

- Built a full-stack personal finance web app using Next.js, React, TypeScript, Prisma, and PostgreSQL
- Developed modules for transactions, budgeting, debt tracking, savings goals, remittances, and reporting
- Implemented secure authentication and role-based access control
- Integrated Telegram and SMS import workflows to automatically classify and record transactions
- Deployed the application on Vercel

Ticketing Operations Automation (Independent Project)

- Built automation tools with Python, Selenium, and Playwright to reduce manual work across ticketing platforms
- Developed scrapers to collect customer order and membership information
- Automated report generation into Excel and Google Sheets
- Added data validation and monitoring scripts to improve operational workflows

Operations Dashboard & Internal Tools (Independent Project)

- Built internal utilities for reporting, workflow monitoring, and database management
- Wrote SQL queries and automation scripts to improve operational efficiency
- Developed tools to organize customer records and generate business reports

EDUCATION

Bachelor of Science in Computer Science

ADDITIONAL INFORMATION

- Detail-oriented with strong data accuracy and quality-control habits
- Experienced in handling confidential and sensitive information
- Strong analytical and troubleshooting abilities
- Able to work independently and remotely with minimal supervision
- Quick learner, adaptable to new tools, platforms, and systems
